M4DE Range 2018

Motorola mobiles are going to be everywhere in 2018!

New generation devices are coming up soon and you can count on us to provide all the accessories to protect them. Our long term relationship on the made for program gives us premium access to all the information to deliver our best accessories Time to Market.

Together with Motorola, we decided to increase visual impact of our accessories in stores, by redesigning our packaging in bright Motorola red colour.

You will see once more all our technical expertise, our design trends and our focus on quality on this catalogue.

A new muvit identity dedicated to Motorola, playing with the devices specificities such as the round optic and textured back. The red will be a key color in Motorola's identity in 2018 and as much for us. You will be able to display a product that seems to come directly from Motorola.

Tempered Glass

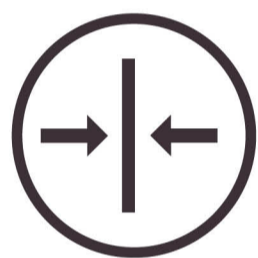

Tempered glass has become the most important mobile accessory, above backcases. Screen breakage is one of the worst damages that can happen to a smartphone. Tempered glass technology evolved to come up with a technical product which thickness is scientifically determined, allowing the best protection.

Tempered Glass

Features

- A high quality Glass
- Anti-scratching treatment on the front side
- Superior quality glue for layers
- 0.33mm thickness

Thin layer

Anti-scratching
